- Accessibility / Contrast
- Consistency
- Hierarchy
- Spacing
- Design Style
- Proximity
- Alignment

color

Rule of design-> when a visitor visit a website the website must be design like the way that the visitor or the user can understands the website within 15s to 16s

- There is only a primary color work website

Always try to work with one main color ,you can use two color but not more than

Website for test in color : [Realtime Colors](#)

Website for unlimited color: <https://coolors.co/>

Typography

Best use the one font

Website for this -> <https://typescale.com/>

Accessibility/Contrast

Color Contrast checker : <https://coolors.co/contrast-checker/112a46-4f87c4>

Icons

Website-><https://tabler.io/icons>

Design Style

- Flat
- 3d
- Gradient
- Neomorphism
- Modern
- Hybrid
- Minimalistic
- Glass morphism
- Mesh Gradient UI
